## Hunting in Tanzania

### Hunting in Tanzania

...a story of peerless encounters.

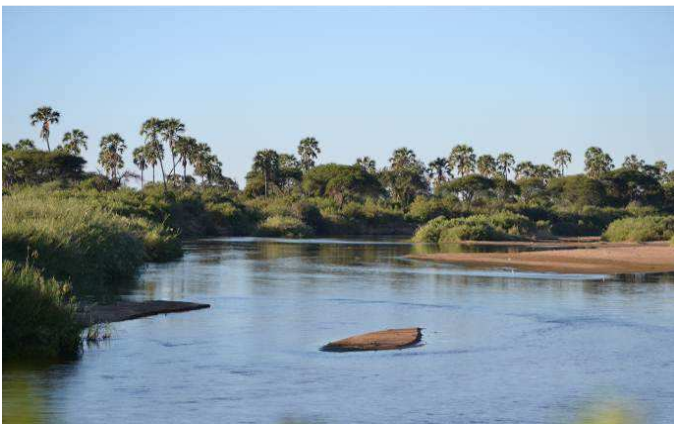

Tanzania is without a doubt, one of the most famous and exclusive hunting safari destinations in Africa. The areas Rungwa, Kilombero Valley, Maasailand und Selous of **Kilombero North Safaris Ltd.** are the perfect example of all Tanzania has to offer: an incomparable variety of wildlife and stunning vistas. 25% of its land mass is conserved for wildlife parks and reserves with over 190 appointed hunting blocks. The wildlife is some of the most tremendous of all African countries. Species availability varies widely across the country and also includes highly prized rarities.

With the introduction of the new blocks of Kilombero North Safaris Ltd. they are now able to offer the avid huntsman a larger variety for his sports hunting pursuits.

**WING SHOOTING** - This traditional pursuit can thoroughly be enjoyed here in Tanzania, particularly in the vast Maasailand. With its immense expansion of flat seemingly endless plains, it offers an exceptional variety of bird life: Guinea & Spur Fowl, Francolin, Bustard, Dove, Quail and Sandgrouse, to name but a few.

**FALCONRY** - If you are an experienced falconer, our concessions offer you the opportunity to indulge your pursuit in the wilderness of Tanzania. Some of our concession offer exceptional endless savannas with prey such as Steenbok, DikDik, Common Duiker, Guinea and Spur Fowls, Francolin, Dove, Quail, Sandgrouse. The choice is abundant, allowing many an occasion for a falcon to hunt.

**BOW HUNTING** - Kilombero North Safaris hunting blocks offer many opportunities for a more "traditional" form of hunt, bow hunting. Opportunities abound and enable the bow enthusiast enthralling experiences.

## Weather & Climate

Depending on where you are in Tanzania, the weather and climate varies considerably, though generally this is the pattern:

Summer:	September to April	30°C to 20°C
Winter:	May to August	25°C to 19°C

Rainfall: April to May (long rains), November to mid-December (short rains)

## Hunting Season

Runs from 1<sup>st</sup> July through to 31<sup>st</sup> March. Kilombero is **best hunted in the driest months of August through to November.**

## Firearms & Ammunition

Please bring your own firearms which you are accustomed to. You are permitted to import three guns into Tanzania for your safari. Handguns, together with automatic and semiautomatic weapons are strictly prohibited.

**Recommended calibers for dangerous game are .375 H&H Magnum, .416 Rigby and the .470 Express.** For the plains game hunt (long range shooting) use telescopic sights.

You are allowed to import 200 cartridges for each different caliber or gauge, which is sufficient. Please bring your own ammunition.

Kilombero North Safaris arranges all import/export permits as required in Tanzania for firearms and ammunition, which are subject to Import Duty.

Airlines require that firearms and ammunition be checked. Firearms should be securely cased and unloaded, with ammunition in a separate container.

You must advise the commercial airline that you are traveling with firearms and ammunition. Each Airline has strict and individual restrictions as the weight and packaging, so please check with the Airline as to their requirements upon booking.

**Cites Permits** Cites permits from your country of residence (or country to where your trophies are to be shipped), must be obtained for the animals you wish to hunt. Please note Kilombero North Safaris are not responsible for obtaining CITES and other import permits for your final destination.

**Regulations** **Hunting Regulations of Tanzania Wildlife Department:**  
They permit the hunting of both lion and leopard under the following conditions.

- **21 day safari**

If hunt guidance 1:1 – 1 Permit for 1 Lion and 1 Leopard

If hunt guidance 2:1 – 1 Permit for 1 Lion and 1 Leopard (the hunters will share the permit)

- **Legal length**

The minimum legal length for Leopard is 1,50 meters (60 inches) from tip of nose to base of tail

The minimum legal length for Crocodile is 3 meters (118 inches) from tip of nose to tip of tail

- **Acceptable species on a 21 day license:**

Lion, Leopard, Oryx, Greater Kudu, Eland, Gerenuk, Sable, Ostrich, Klipspringer, Hippopotamus, Roan, Lesser Kudu, Dik Dik and Porcupine.

Minimum caliber for dangerous game is .375" (9,3mm).

## Hunting Areas

**Rungwa**

**Kilombero Valley**

**Maasailand**

**Selous**

## Rungwa

Lying between the Ugalla and Rungwa Game Reserves is one of Tanzania's prime Miombo woodland hunting areas – Inyonga East. Typical of Miombo wooded areas, large open plains and fertile savannas, it offers an ideal habitat for its wide variety of species.

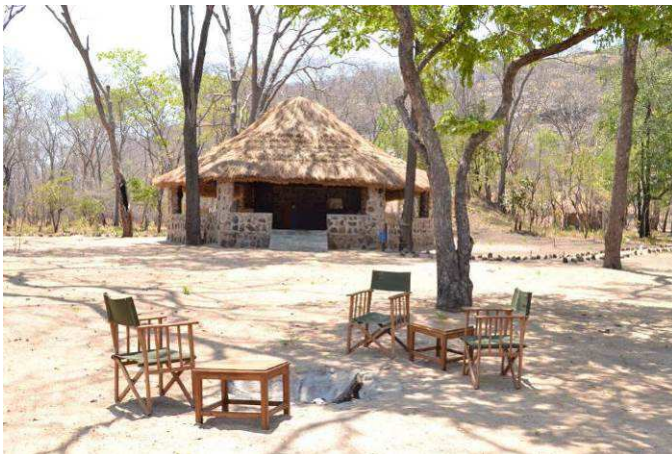

From Lion, Sable, Roan, Waterbuck, Greater Kudu, Leopard, Topi, Bushbuck, Hippo and Crocodile, this area is known for its excellent quality of trophies.

## Kilombero Valley

For years untold, the Kilombero Valley has been the choice destination for the serious and discerning Hunter, and from it we offer you over 7,000 sq/km of exclusive private concession. With vast floodplains, reed islands, forested hills and untamed rapids, Kilombero is the largest wetland of East Africa. It is home to a veritable biodiversity.

Big game roams freely, to some of Africa's largest buffalo herds. The Valley is home to enormous Crocodiles and abundant Hippos in the vast complex of its fresh water rivers. It is the place where a great presence of rare Puku is found and other antelope such as the Roosevelt Sable, Eland and Hartebeest.

## Maasailand

LAKE NATRON SOUTH GCA is an intense landscape. It features the famous Rift Valley volcano of Lengai - the only active volcano in East Africa. The area is dominated by the majestic Kitumbeine mountain rising close to 9,000 ft. It is here where the Maasai and wildlife co-inhabit the plains beneath Lengai that we encounter most of the classic eastern Maasailand species, including Zebra, Impala, Wildebeest, Grant's and Thompson's gazelle, Gerenuk, Lesser Kudu, DikDik and Fringe Eared Oryx.

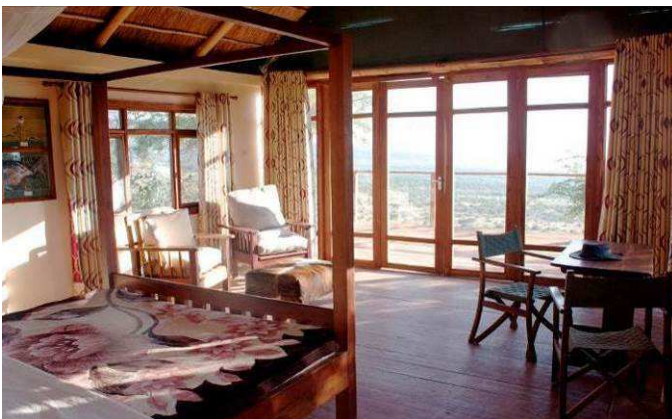

KITWAI NORTH: Kitwai features the topography of the famed Maasai Steppe of which they are part. Located on the most Southern Easterly corner of the steppe, it is an extension of acacia woodland and thorn scrub with wide-open plains. Large herds of Eland, Zebra and Grants Gazelle move in with the arrival of the rains from December and stay on through to March. Other species, Impala, Lesser Kudu, Dik Dik, Steenbok, and Grants Gazelle all make for good hunting. in this area.

## Selous Game Reserve LU1/2

SELOUS GAME RESERVE LU1/2 one word perfectly describes this part of Tanzania: ABUNDANCE. Everything here is "more". Thanks to the great rivers, lakes and vast wetlands, the wildlife attraction to this region is tremendous. Designated as a World Heritage Site, with over 30,000 sq/km of stunning and diverse flora and fauna, the Selous is the largest game reserve in the world.

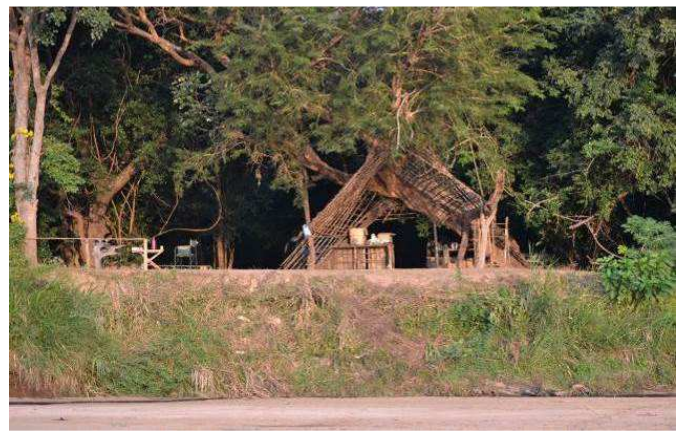

While there are many habitat types, the deciduous miombo woodland dominates over the rocky acacia-clad hills, gallery and ground water forests, swamps and lowland rain forests. A safari in the Selous will allow you to encounter massive Cape Buffalo and Nyasa Wildebeest. Throughout this vast province, the big cats reign supreme: namely the mighty Lion and the all-elusive Leopard.

## Hunting blocks

### KILOMBERO NORTH HUNTING SAFARIS - HUNTING BLOCKS

## Recommended Equipment:

- Upon arrival comfortable casual clothes
- 2 long trousers / 1 x shorts
- 2 long-sleeved shirts with pockets
- 1 short-sleeved shirt with pockets / 2 T-Shirts
- 1 windproof, warm jacket for the evening and morning hours
- 1 sweater or cardigan
- Ankle-high shoes lightweight hunting (stalking is also possible with sneakers)
- Sneakers and sandals as a substitute for the camp
- Pyjama / jump suit for the evenings in camp
- 4 x underwear / socks
- 1 wide-brimmed hunting hat and 1-2 Caps
- 1 light backpack in which you can store things needed during the hunt.
- rain gear or poncho
- Toiletries (razors or razor with battery, in the camps is generated with solar energy, which is sufficient but not to operate from razors), sewing kit
- sunscreen with a high sun protection (two large bottle and a small bottle on the go!)
- insect repellent, insect pin (for example Autan)
- personal medication
- Small first aid kit (plasters, antiseptic ointment, painkillers, charcoal tablets ...) \*
- Water bottle
- Flashlight (Important! For example Maglite with belt bag and standard 1.5 volt batteries), spare batteries, the flashlight should always wear on your belt! In Africa, it is in the evening fast dark and without air for example to go from the camp fire to his sleeping place is unnecessary frivolity!
- Hunting knives (a small folding knife is sufficient)
- binoculars (not too big and heavy night glass, a small 8 x 30 is optimal)
- Sunglasses / spare glasses
- small photo equipment / video equipment (camera, film, batteries, dust-safe plastic bag, carry bag)
- Weapon, variable scope (ideally 1,5-6fach), ammunition, cleaning purposes, Gun-case. (do not save on ammunition, local purchase of ammunition is not possible, we recommend 40-60 shot! Convert as well that you still need to take test shots before shooting to check the point of impact.  
Passport, international driver's license if you for example still want to rent a car, the **EFP (European firearms pass)**, credit card (s), euro-travelers checks or cash (in Euro), airline tickets

Basically, rather dark beige or green color, tear-resistant clothing, if possible made of cotton, recommended. In the camps there is a daily laundry service. So do not take unnecessary with much clothing. In the evening, give the dirty laundry on the floor or in the designated basket and get washed and ironed the next day back to back!

## YOUR KIT SHOULD CONTAIN:

- sunscreens
- eye, ear and nose drops
- thermometer (digitale)
- scissors and forceps
- plasters
- disinfectants
- wound and healing balm
- Insect repellent
- the usual long term medication

**AND FOLLOWING MEDICINES:**

- against fever, diarrhea and vomitus
- stomach trouble
- travel sickness
- sunburn
- insect bites
- circulatory problems
- insomnia
- **For pain relief (always carry with you!)**
- constipation
- against the mouth and throat inflammation

**Finally, our preparations, please remember:**

- passport
- European firearms pass
- International vaccination card
- Knives, weapons parts and ammunition not in your hand luggage (!)
- Rifle in rugged gun case
- Ammunition
- Travelers checks
- Binoculars
- Drugs, especially Autan
- Camera with new batteries and films
- Air ticket (check departure times again), confirm return flight immediately after arrival
