

ARGENTINA 2023

BIRD SHOOTING

Blaser
safaris

Thanks to its vast geography and diversity of native species, this South-American country offers one of the best wing shooting proposals of the world.

GENERAL TRAVEL INFORMATION

CURRENCY

1 Argentine peso (arg\$) = 100 centavos

TIME DIFFERENCE

MEZ -3 h, MESZ -4 h

CLIMATE

There is a six-month difference in seasons compared to Europe: Their winter happens during European summer and vice versa. Given the size of the country, Argentina covers several climate zones.

This translates to a subtropical climate in the north (extremely hot and humid summers), an arctic climate in the south, and a more temperate climate in the capital and the more economically significant provinces. There can be abrupt and significant temperature changes throughout the country.

Advice

In the tropical and subtropical zone, major stresses on the body should be avoided, especially while acclimating. Make sure you are drinking enough fluids, especially during the hot season. You should eat light meals and avoid fatty foods; excessive alcohol consumption will further reduce the body's resilience, which is already impaired.

ELECTRICITY

220 volt, 50 hertz alternating current. Three-pin plug sockets (adapter required)

ENTRY REQUIREMENTS

Please note the entry requirements for the respective country. Information can be obtained at the responsible consulate. In case a visa is needed, please be advised, that the acquisition is your own responsibility.

HEALTH

The poor hygiene in public hospitals means that they do not meet European standards. The situation in private hospitals is better. The supply of medicines is OK.

Vaccinations

Please note the vaccination requirements for each country. This information is provided by the relevant institute of tropical medicine. If vaccinations are required, please note that you are personally responsible for complying with the rules.

Caution

Make sure you follow standard hygiene measures, such as washing your hands frequently. Caution is advised when eating raw fruit and salads. Do not drink tap water (it contains chlorine and is often contaminated). Taking a first-aid kit containing your regular medication plus medication for common travel-related illnesses is recommended."

INSURANCE

Taking out travel insurance in case you fall ill or require ambulance services is strongly advised.

HUNTING IN ARGENTINA

OUR PARTNER:

Our Partner, Argentina Bighunting, has many years of experience in the field; our professional hunters support and take care of our clients personally, whom also receive the assistance of qualified bird boys and highly trained pointer and retriever dogs. The number of daily rounds shot by the hunters depends on the bird species subject

to the shoot, but in every case shooting will go beyond the expectations of our guests.

Altogether with wonderful landscapes, a great quantity of recovered pieces, good food, excellent wine, friendliness and shared anecdotes, our partner guarantees an unforgettable hunting trip.

ACCOMMODATION

The accommodations of all our bird hunting programs are of excellent quality. We cater to all lodging needs according to the preferences and budget of our customers. Luxurious hunting lodges, cozy country houses, traditional “estancias” on the grounds and even a 180 year old palace are some of the choices available for our clients.

Following the main goal of our partner, our desire is to place our hunters as close as possible to the hunting grounds in order to avoid unnecessary trips.

SANTA ADELA

HUNTING AREA ENTRE RIOS

We are proud to manage the closest high volume dove roosts from Buenos Aires

the main shooting area is located in South Entre Rios Province where we manage a huge extension of land. It is strategically located just two hours by car from Buenos Aires so no domestic flights needed and it's very easy to get. Hunters save time and troubles when they hunt in this place.

Besides amazing dove shooting we are one of the few local companies that offer the rest of the species: ducks, perdiz, doves & pigeons in the same place.

The flagship lodge for this program is Santa Adela, also our main accommodation for bird shooting. It is a country house situated in the middle of an ancient grove which features ten double bedrooms with private bathroom.

The lodge is elegant and charming with the touch of its old days but with all the modern comfort. It provides careful personal service, international gourmet cuisine, air conditioning, Wifi, phone service and easy access all year around.

HUNTING EXAMPLE

POSSIBLE ITINERARY

A short description of a normal itinerary for hunting parties booking a bird hunt near Buenos Aires.

- Day 1** Our services begin upon your arrival at Buenos Aires International Airport in the early morning. We help our clients with the gun clearance and preparing the gun introduction forms in advance. Then we take a van and drive directly to the lodge from the airport. Once we arrive at the lodge we offer a welcome drink. Our chef will prepare lunch afterwards; both Argentinian and International gourmet cuisine will be served at the main dining room. We go hunting in the afternoon immediately after lunch or after a nap, depending on the preferences of the clients. A professional hunter will decide what program would be most suitable for the party (doves or partridge) according to the time and hunting conditions, if we go for partridge we expect to shoot around a couple of boxes (10/1 5 partridges) on the afternoon or 20 boxes if we go for doves. After hunting, snacks and drinks will be offered either on the deck or in the living room. Dinner will be prepared on request to provide a restful end to a long and happy day.
- Day 2** Starting with an early morning wake up call, we head out to start duck hunting. We shoot around 4 boxes on normal days. A light or full breakfast can be served on request. If only a light breakfast was chosen, the lodge welcomes you to enjoy a brunch later at the nearby lodge. After which guests have the opportunity to choose between continuing to hunt or taking a small break until lunch. The afternoon provides another chance to hunt (partridge, doves or pigeon if available).
- Day 3–4** Similar to day 2, the hunters also have the choicer to alter their program to try some of the other opportunities provided.
- Day 5** A final opportunity to hunt in the morning before lunch and driving back to Buenos Aires Int. airport and drop off the hunters over there.

RECOMMENDED EQUIPMENT

CLOTHING:

Since Argentina doesn't have as extreme weather conditions as North America and Europe we recommend bringing clothing for mild/cold weather. During our fall we recommend light but strong shirts and trousers, a wool sweater, hat and a heavy jacket just in case. Camo gear is allowed in Argentina. Special underwear, gloves and a warm hat can also be useful. As for the footwear we recommend comfortable waterproof boots, suitable for long walks.

SHOOTING EQUIPMENT:

We strongly recommend bringing at least two shotguns, either side by side, over/under or semi-automatic (maximum 3 cartridges) due to the high volume of birds at some points of the drives.

DOCUMENTS:

Prior to your arrival please submit the following data. A color photocopy of your local shotgun license (EU-Firearm pass), local hunting license, passport and the type and the make and serial number of your gun/s. This information is needed one month prior to your arrival.

FLIGHTS:

Please take a flight to Buenos Aires international airport.
