Game Hunters Africa - Eastern Cape Province - Stormberg Conservancy

Hunting area Stormberg

The Stormberg Conservancy is a mixture of picturesque mountains and open valleys, situated in the high country of the Eastern Cape Province of South Africa. Part of this 100.000-acre conservancy's rich ecosystem includes 20 species of plains game, numerous game birds and waterfowl. This high altitude montane grassland area is famous for its Greywing Partridge hunting, and boasts the most stable populations of Vaal Rhebok in Africa.

The quarries in this area live from the open plains up to the rugged mountainsides, where the altitude extends up to 7500 feet above sea level. Hunting in this region can be strenuous due to the walking and stalking that is required. Hunters here will be exposed to long range shooting, so a good flat shooting rifle with variable scope is advisable. Cool temperatures can be experienced in this area; therefore, it is advisable to bring warm clothes. The days can be temperate, with cold mornings and evenings.

Animals that can be hunted in and around Stormberg conservancy are: Steenbok, Grey Duiker, Cape Gysbok, Oribi, Mountain Reedbuck, Vaal Rhebok, Cape, Black and White Springbok, White and Common Blesbok, Red Lechwe, Red Hartebeest, Fallow Deer, Black Wildebeest, Burchell's Zebra, Cape Eland.

Accommodation Stormberg Buffelsfontein

Buffelsfontein is a colonial style lodge, which is set at the top of the Stormberg Mountains. After a solid day's hunting in the mountains, Buffelsfontein lodge can be a welcome sight for the weary and cold hunter. Fond memories of the day's hunting can be re-lived around the large stone fireplace in the entertainment room. Dinner is served in a separate dining room with a blazing log fire, adding to the warm atmosphere. Electricity is available at Buffelsfontein Lodge.
