CLIMATE

The climate in Estonia is similar to that of Scandinavia. It can be characterized as moderately cool with long, crisp, and cold winters and short, moderately warm summers. The climate in the north and west of Estonia is milder due to the influence of the Baltic Sea, while it gets more and more continental the further south and southeast you go.

ELECTRICITY

230 Volt, 50 Hertz

ENTRY REQUIREMENTS

Please note the entry requirements for the respective country. Information can be obtained at the responsible consulate. In case a visa is needed, please be advised, that the acquisition is your own responsibility.
