## HUNTING IN ETHIOPIA

They have never taken a Mt. Nyala under 35" and they intend to stay true to this throughout their years of operation!! Their concessions are managed and monitored very seriously, giving us top quality conditions to produce excellent trophies.

### **ARRIVAL / INTERNATIONAL FLIGHT & PAPERWORK:**

Planning your trip to visit Ethiopia is a very simple process. Once your safari has been confirmed, all paperwork for gun permits and hunting licenses will be provided to you 6 months before your scheduled departure. We will provide hands on help with all the information, paperwork, and questions you may have.

Detailed information about the agent or PH that will pick you up, will be provided to you 15–30 days before departure.

**HOTEL:**

That night you will overnight and rest in Addis, at the hotel of your choice, either the Sheraton, a 5-star hotel with all amenities, or the Hilton a 4-star hotel. The third choice would be Intercontinental Hotel a 3-star hotel, which is comfortable.

Your PH will brief you about all details concerning your next day departure to the hunting cam / area.

**THE DRIVE TO CAMP:**

The duration of the drive to camp, varies on what area you will be hunting, however you can expect between a 4–6 hour car rides to camp.

The drive is done in our top of the line and very comfortable Toyota Land Cruiser, station wagon. The roads to the hunting camp are in great condition, so the drive is pleasant.

**SEASON & TIME OF YEAR:**

The Hunting Season runs from August 1st to July 31st of the following year. The best time to plan your Mt. Nyala Safari is early October through June. Ethiopian's rainy season settle in early July through September, making hunting difficult, especially in the highland areas.

**SPECIES & AREA:**

All these different species, with many of them being endemic to Ethiopia, makes these safaris very exclusive & are highly sought after by hunters around the world. Hunting areas in Ethiopia are so diverse we have categorized them by either Highland or Lowland species.

Highland Species are hunted in the Ah Mar Mountain Range and include: Mountain Species, Mt. Nyala, Leopard, Menelik's Bushbuck, Bushpig and Colobus Monkey.

Lowland Species are conducted in the Danikal, include Sommering's Gazelle, Besia Oryx, Lesser Kudu, Salt's Dik-Dik, Abyssinian Bushbuck, Abyssinian Greater Kudu, Northern Gerenuk, Deface Waterbuck and a range of Baboons.

Nil Buffalo is hunted in the West of the country, in more savannah woodland country. Other species like E.A Defassa Waterbuck & Bushbuck are found here.

# HUNTING AND ADDITIONAL COSTS

HUNTING COSTS	Price (USD)
<b>16 Days (21 day license) Highland Mountain Nyala (only)</b> Species: Menelik's Bushbuck, spotted hyena, colobus monkey, hamadryas baboon Please note that NO Trophy fees are included in prices below	54,850,- 6,000,- (non hunter)
<b>15 Days Highland Mountain Nyala PLUS Lowland Species</b> Area Optionen: C or. D and/or E&F	32,850,- 4,900,- (non hunter)
<b>21 Day Highland</b> Area A (chosse between Oryx/Gazelle/Lesser Kudu) or. Area B and/or E & F.	37,850,- 6,900,- (non hunter)

Due to the complexity of the Ethiopian regulations for adding multiple areas or species to hunting licenses, we've chosen not to show the prices on any of the upgrades. We would rather offer our clients a customized package of exactly what species they are looking for. Once the client has decided on what they'd like to hunt, we can then give a detailed breakdown of the costs and regulations
