# HUNGARY

# GENERAL INFORMATION

## GENERAL CONDITIONS OF HUNTING IN HUNGARY:

The hunting guest is obliged to only conduct hunts with local Hungarian hunting guides in Hungary. The hunting guest must strictly follow the instructions of the hunting guide and only bag the game identified and permitted to be shot by the hunting guide.

The harvested trophies have to be presented to the official Trophy Assessment Commission after the hunt and cannot be taken along by the hunter. The trophies are sent to the stated address.

The chargeable weight of the horns respectively antlers, need to be entered into the hunting protocol by the game reserve. If the weight has not been determined in the game reserve, you should be present at the trophy assessment. In case this is not possible, you are obliged to accept and pay the weight of the horns respectively the antlers as determined by the Trophy Assessment Commission.

The harvested and paid trophy is the property of the hunter, except for the game meat, which can be acquired by the hunting guest at an extra charge. The same applies to coats.

The final invoice is based on the completed and mutually signed shooting list according to the respective price list. The tolerance of 15 % for trophy weight estimation by the hunting guide has to be accepted by the hunting guest. For wounded game 50% of estimated trophy weight and/or harvest fee is charged.

The necessary documents, such as shooting list and hunting license, are sent by Blaser Safaris GmbH to the game reserve prior to the hunt.

The hunting guest must possess a hunting license valid in their home country and a European Firearms Pass in which the firearm carried along by the hunter is mentioned. Additionally, the hunting guest is obliged to pay for potential damage caused by him or her. If a trophy is harvested and is declared a new world record by the Trophy Assessment Commission, the original trophy must not be exported from Hungary. In this case the hunting guest receives a replica trophy and has to pay only 50 % of the harvest fee.

## HUNTING REGULATIONS

Before the start of the hunt each hunting guest needs to purchase a hunting license for the respective state. This hunting license is organized by Blaser Safaris GmbH. All hunting guests are requested to present a valid hunting license before the start of the hunt.

# GENERAL HUNTING INFORMATION

During one of our visits in early January we could hardly believe how many woodcocks and common snipes inhabit the heathlands and woodlands. Hunts are conducted with setters, pointers and Springer Spaniels that retrieve the harvested snipes. You can expect daily bags of 10 to 20 snipes per hunter. Many French hunters have been traveling to Ireland for decades, when migrating snipes come here. A classical, very appealing and exciting hunt, which demands good shooting skills. In higher regions during these hunts, you will also encounter the popular red grouse that are quite numerous in Ireland.

## **PARTNER:**

We offer with our partner J. M. M. Killoglin an unique opportunity for parties of 2 to 8 guns.

## SANTA ADELA

# HUNTING AREA ENTRE RIOS

We are proud to manage the closest high volume dove roosts from Buenos Aires

the main shooting area is located in South Entre Rios Province where we manage a high extension of land. It is strategically located just two hours by car from Buenos Aires so no domestic flights needed and it's very easy to get. Hunters save time and troubles when they hunt in this place.

Besides amazing dove shooting we are one of the few local companies that offer the rest of the species: ducks, perdiz, doves & pigeons in the same place.

The flagship lodge for this program is Santa Adela, also our main accommodation for bird shooting. It is a country house situated in the middle of an ancient grove which features ten double bedrooms with private bathroom.

The lodge is elegant and charming with the touch of its old days but with all the modern comfort. It provides careful personal service, international gourmet cuisine, air conditioning, Wifi, phone service and easy access all year around.

# HUNTING EXAMPLE

## POSSIBLE ITINERARY

---

A short description of a normal itinerary for hunting parties booking a bird hunt near Buenos Aires.

- Day 1** Our services begin upon your arrival at Buenos Aires International Airport in the early morning. We help our clients with the gun clearance and preparing the gun introduction forms in advance. Then we take a van and drive directly to the lodge from the airport. Once we arrive at the lodge we offer a welcome drink. Our chef will prepare lunch afterwards; both Argentinian and International gourmet cuisine will be served at the main dining room. We go hunting in the afternoon immediately after lunch or after a nap, depending on the preferences of the clients. A professional hunter will decide what program would be most suitable for the party (doves or partridge) according to the time and hunting conditions, if we go for partridge we expect to shoot around of a couple of boxes (10/1 5 partridges) on the afternoon or 20 boxes if we go for doves. After hunting, snacks and drinks will be offered either on the deck or in the living room. Dinner will be prepared on request to provide a restful end to a long and happy day.
- Day 2** Starting with an early morning wake up call, we head out to start duck hunting. We shoot around 4 boxes on normal days. A light or full breakfast can be served on request. If only a light breakfast was chosen, the lodge welcomes you to enjoy a brunch later at the nearby lodge. After which guests have the opportunity to choose between continuing to hunt or taking a small break until lunch. The afternoon provides another chance to hunt (partridge, doves or pigeon if available).
- Day 3–4** Similar to day 2, the hunters also have the choicer to alter their program to try some of the other opportunities provided.
