

GAME HUNTERS AFRICA 2026

Blaser
safaris – hunting worldwide

GAME HUNTERS AFRICA offers the discerning hunter a wide variety of destinations in the fields of wing shooting, plains game hunting and dangerous game safaris.

The team consists of three passionate guides and their families, who are vastly experienced, each having over 20 years of experience in the industry. Together with their loyal professional hunters, we will guide you to the safari of your dreams.

Accommodation in the various concessions vary, from typical East African-style tented camps and thatched bush lodges to colonial era lodges. The variety in these lodges is largely dictated by the great variance in temperatures and weather conditions that we experience in our different concessions. All lodges are run with personal attention to detail that our clients have become accustomed to. Having access to a wide variety of areas allows us to offer most of Africa's many species.

SOUTHERN AFRICA

DESTINATION

SOUTH

AFRICA

South Africa is a fine place to start your first African Safari and a great stepping-stone before going after the Big Five. It is also easily accessible with daily flights from most of the world's major centers. Boasting more huntable species than any other country in the world, South Africa is perfect for a short hunt in one area or a safari covering all of South Africa's diverse habitats. Being well developed, it is suited to a safari for the whole family. We cover all the areas from the Northern Cape, Western Cape, Eastern Cape, Limpopo and Kwa-Zulu Natal. This gives one the opportunity of taking all that South Africa has to offer the discerning hunter - from the tiny Cape Grysbok or Blue Duiker to Elephant and Buffalo, the list is endless. For non-hunters, there are a host of interesting photographic and touring options available. Accommodation varies from lodges, tented camps to chalets all with en-suite bathrooms within some of the most magnificent surroundings.

DESTINATION

BOTSWANA

AFRICA

The Kalahari is renowned for exceptional Kudu, Gemsbuck, Eland, and Kalahari Springbuck. Bowhunting is best in the late season once the water starts to dry up. Hunting with Bushmen, who can read the tracks like a book, is an unforgettable experience. The Ghanzi District is situated in the Western corner of the central Kalahari, a 3-hour drive from Maun International Airport. The Kalahari is a semidesert and is reasonably flat with low scrub and grasses. Botswana was one of Africa's premier Elephant hunting destinations. In this area, we hunt a variety of private reserves. The area itself is roughly 120 000 acres in extent and is game-fenced. There are also out lying areas that are unfenced and hold great Kudu bulls. There is one main camp that we use, offering a combination of East African-styled tents and brick and tile chalets, all with en-suite bathrooms.

AFRICA

The pristine South Luangwa Valley, an extension of the famous Ritt Valley. Renowned for its unspoilt beauty and varied habitats, the Luangwa Valley supports one of Africa's richest concentrations of wildlife and birds. The geology is varied and embraces both escarpments and valley floor. Dry sandy riverbeds, streams and lagoons create the ideal habitat for the hunting of big game. Safaris are normally conducted following the traditional style of walk and stalk, and although we make use of fully-equipped safari vehicles, we adhere to the old hunting traditions without compromising success. Safaris are often tailor-made to suit individual needs. The Luangwa river bank offers some of the finest hunting on foot, found anywhere in Africa. This ultimate adventure is only for those who enjoy the rigors of walking and the thrill of the chase in a specialized Buffalo hunt. The hunt is conducted in hill country, where large cantankerous bulls live out their last days in isolation.
