STALKING

**Blaser**  
safaris

Safaris can be conducted throughout the year; however the best time for a safari is between April & October. Some 40 different species of game can be hunted across the country, but each safari is individually planned to give you maximum enjoyment & satisfaction. The safari is suitable for the whole family, including non-hunters; there are a variety of interesting, photographic tours.

# GENERAL TRAVEL INFORMATION

## CURRENCY

1 Rand (R) = 100 Cent (c)

## TIME DIFFERENCE

CET +1 h

## ELECTRICITY

220 Volt/50 hertz alternating current, three-pin plug sockets (adapter required)

## ENTRY REQUIREMENTS

Please note the entry rules for each country. You can obtain this information from the relevant consulate.

If you need a visa, please note that you are responsible for obtaining the visa yourself.

## CLIMATE

The geographical and climate conditions in the country generally do not require a different way of life. The climate is generally very pleasant and mild. The seasons are offset by 6 months compared to Europe: Winter happens during European summer and vice versa.

Due to its size and the different landscapes, South Africa has a variety of different climate zones (sub-tropical to Mediterranean climate, but the evenings and nights can be very cold in the winter months).

Summer rain from October to April in the northern and eastern parts of the country; rain also in winter on the south coast. The temperatures at higher elevations (Johannesburg and Drakensberg) can drop below freezing in winter.

South Africa can be warm to hot during the months of April, May, September and October (65°F – 85°F). The months of June, July and August are winter and can start with night temperature's dropping to below zero, warming up to around the mid 60°F or 70°F by midday.

## HEALTH

Larger cities in South Africa have (private) hospitals and doctors meeting the highest international standards, but also charging correspondingly high fees. If medical treatment is sought, payment has to be made directly on site (in hospitals usually by paying a deposit before admission).

### Vaccinations

Please note the entry requirements for the respective country. Information can be obtained at the responsible consulate. In case a visa is needed, please be advised, that the acquisition is your own responsibility.

No vaccinations are required on entry, except when entering from an area where yellow fever is present. However, apart from the basic vaccinations for all travelers (diphtheria/tetanus/polio, hepatitis A & B, typhoid), the Center for Travel Health recommends that independent tourists and those planning an extended stay have a preventive vaccination against rabies.

Malaria prophylaxis (in particular the use of good insect repellents on skin and clothing) is expressly recommended for the Kruger National Park, the northern KwaZulu-Natal and the neighboring regions around St. Lucia as well as parts of Mpumalanga and the Northern Province, in particular during the humid summer months (November to March). For trips to KwaZulu-Natal, special care should be taken regarding hygiene and only bottled water should be consumed due to the risk of a cholera infection. Tuberculosis is also relatively widespread in South Africa and cases keep increasing. A TB vaccination is therefore recommended, especially for children.

### Attention

Following standard hygiene measures, such as frequent hand washing, is generally sufficient. In towns and areas with fewer tourists, take care when consuming raw fruit and salads. The tap water is usually drinkable, but care is still advised. Schistosomes (bilharzia), a parasite occurring mainly in stagnant water, is present in all southern African bodies of water – appropriate care must be taken.

During the humid season in particular, ticks are prevalent and cause tick bite fever. While not life-threatening, it causes high fever and severe weakness and requires an extended convalescence period. Taking a travel medical kit containing your regular medication plus medication for common travel-related illnesses is recommended.

## INSURANCE

Taking out travel insurance in case you fall ill or require ambulance services is strongly advised.

## HUNTING AREA STORMBERG

The Stormberg Conservancy is a mixture of picturesque mountains and open valleys, situated in the high country of the Eastern Cape Province of South Africa. Part of this 100,000-acre conservancy's rich ecosystem includes 20 species of plains game, numerous game birds and waterfowl. This high altitude mountain grassland area is famous for its Greywing Partridge hunting, and boasts the most stable populations of vaal rhe-buck in Africa.

The quarries in this area live from the open plains up to the rugged mountainsides, where the altitude extends up to 7500 feet above sea level. Hunting in this region can be strenuous due to the walking and stalking that is required. Hunters here will be ex-posed to long range shooting, so a good flat shooting rifle with variable scope is advisable. Cool temperatures can be experienced in this area; therefore, it is advisable to bring warm clothes. The days can be temperate, with cold mornings and evenings.

Animals that can be hunted in and around Stormberg conservancy are: steen-buck, grey duiker, cape grys-buck, oribi, mountain reed-buck, vaal rhe-buck, cape, black and white springbok, white and common bless-buck, red lechwe, Red Hartebeest, fallow deer, black wildebeest, burchell's zebra, cape eland.

## ACCOMMODATION

---

### STORMBERG BUFFELSFONTEIN

Buffelsfontein is a colonial style lodge, which is set at the top of the Stormberg Mountains. After a solid day's hunting in the mountains, Buffelsfontein lodge can be a welcome sight for the weary and cold hunter. Fond memories of the day's hunting can be re-lived around the large stone fireplace in the entertainment room. Dinner is served in a separate dining room with a blazing log fire, adding to the warm atmosphere. Electricity is available at Buffelsfontein Lodge.

Laundry is done each day except for the days when you change camp and the day of departure.

## POSSIBLE ITINERARY

---

Eastern Cape Province to Stormberg Conservancy (distances by car):

- East London in approx. 4 hours
- Port Elizabeth in approx. 6 hours

<b>DAY 01</b>	Departure from Europe
<b>DAY 02</b>	Flight to Port Elizabeth or East London via Johannesburg, transfer to camp
<b>DAY 03–09</b>	For example 7 hunting days
<b>DAY 10</b>	Transfer to airport, return flight
<b>DAY 11</b>	Arrive in Europe

## HUNTING AREA KAT RIVER

The Kat River conservancy is situated in the Eastern Cape Province of South Africa. This conservancy, which is over 125,000 acres, was established in this cattle ranching area to promote the environment to ensure the enhancing of both flora and fauna.

The vegetation in the Kat River Conservancy varies from thick bush-veld and indigenous forest to Savannah. This country is home to most of South Africa's browsing species of antelope. Hunting is typically done by sitting and glassing across valleys and then getting oneself in a position to make a clean shot.

Temperatures are somewhat warmer in this temperate low-lying, thickly wooded country than in the high altitude of the Stormberg Conservancy. The evenings can be cool and the days warm to hot.

Animals that can be hunted in the Kat River conservancy are steen-buck, grey duiker, blue duiker, cape grys-buck, Impala, bonte-buck, cape bushbuck, nyala, red lechwe, red hartebeest, blue wildebeest, common waterbuck, warthog, bush pig, burchell's zebra, gems-buck, cape kudu and cape eland.

## ACCOMMODATION

---

### MANZIKHANYA LODGE

Manzikhanya Lodge is located in the heart of the bush field. It consists of a central indoor lounge and indoor and outdoor dining area.

Guests can chat either inside or around a large open fire under the African sky, depending on the weather. Separate en-suite "Cabins" not far from the main house offers guests privacy and comfort. Batteries and paraffin are used for lighting and electricity.

Laundry is done each day except for the days when you change camp and the day of departure.

## POSSIBLE ITINERARY

---

East Cape Province to Kat River Conservancy (distances by car):

- East London in approx. 2,5 hours
- Port Elizabeth in approx. 2,5 hours

<b>DAY 01</b>	Departure from Europe
<b>DAY 02</b>	Flight to Port Elizabeth or East London via Johannesburg, transfer into camp
<b>DAY 03–09</b>	For example 7 full hunting days
<b>DAY 10</b>	Transfer to the airport, return flight
<b>DAY 11</b>	Arrival in Europa

## OTHER HUNTING AREAS

Nyati-Limpopo Kwazulu Natal,  
Kalahari Oryx

### KALAHARI ORYX

A diamond in the rough.

This rare South African fem stretches over 212 000 acres in the Northern Cape Province, making it the largest privately owned hunting concession in the country.

The reserve forms part of the Kalahari Desert which is a huge sand basin that reaches from the orange River up to Angola in the north, in the west to Namibia and in the east to Botswana.

The 5-star private lodge boasts with four en-suite rooms overlooking the beautiful landscape. Traditional three course meals prepared by our chef are served in the dining/lounge area that leads onto a walkway to the decked swimming pool.

### NYATI – LIMPOPO

Situated within the famous Waterberg biome, this 33,000 acre wilderness boasts three of the Big Five and five of Dangerous Seven along with many different plains game species. The closest port of entry is Johannesburg which is situated approximately 3 hours drive from the reserve.

### IDWALA LODGE, INGWE LODGE & RIVERDANCE LODGE

Meaning rock in Zulu, is a unique wilderness experience with a modern flair. The 5-star tents are nestled along the Blocklands River beneath the stunning 1000-foot cliffs which offer spectacular natural surroundings! Three private single units have a luxurious king bedroom complete with relaxing armchairs for your morning Nespresso. Air- conditioners and full solar systems ensure guest's comfort. Enjoy a dip in the pool, a snooze in a hammock and hear the calls of the wild.
