ZIMBABWE ZAMBEZI VALLEY, DANDE NORTH & EAST, NYAKASSANGA, SENGWA 2024

STALKING

Our Partner Charlton McCallum Safaris (CMS) owns and hunts in the Dande North and East concessions in Northern Zimbabwe. As of 2012 they have bought out their neighbors, who were hunting on the North and South of them, meaning now that they have TOTAL control of the Dande North and East areas. These areas are adjacent and mean that CMS hunts the largest concession in Zimbabwe. It is without doubt the best dangerous game area in the Zambezi Valley!

GENERAL TRAVEL INFORMATION

CURRENCY

Various hard currencies such as USD, ZAR, Botswana pula, Euro

TIME DIFFERENCE

CET +1 h

ELECTRICITY

220 Volt/50 hertz alternating current, three-pin plug sockets (adapter required)

CLIMATE

The average daytime temperatures are 20–25 °C (68–77 °F) and can reach 30 °C (86 °F) from September to November. The evenings are always cool to cold. The rainy season runs from late November until March. Periods of continuous rain are rare.

In the areas of the country at higher altitudes, including the main cities of Harare and Bulawayo, temperatures are rather mild.

Between May and August, the weather is cool and dry, with distinctly cold evenings and nights in June and July. The hottest temperatures are recorded in September and October.

In the lower-lying regions in the North and South of the country, however, temperatures are significantly higher.

ENTRY REQUIREMENTS

Please note the entry rules for each country. You can obtain this information from the relevant consulate. If you need a visa, please note that you are responsible for obtaining the visa yourself.

HEALTH

Due to the hygiene situation and the insufficient supply of medication, the situation in the private hospitals does not meet European standards. We recommend taking along all personal medication for the entire duration of your stay.

The water in the rivers and reservoirs is not suitable for swimming because it is infected with schistosomes (bilharzia). We highly recommend taking along a travel medical kit.

Vaccinations

There are no mandatory vaccinations for travel here, except when entering via a country where yellow fever is prevalent. The Center for Travel Health, however, recommends vaccinations against cholera, hepatitis B and rabies in addition to the basic vaccination program for all travelers (diphtheria/tetanus/polio, hepatitis A and typhoid). Zimbabwe is a malaria country. Please contact a qualified doctor to discuss malaria prophylaxis. Drugs such as Malarone and Lariam have been shown to work well.

INSURANCE

Taking out travel insurance in case you fall ill or require ambulance services is strongly advised.

HUNT IN DANDE NORTH AND EAST

They have a very high success on elephant bulls and have had the highest Valley average for the last 3 years. There are numerous resident elephant bulls in Dande but an added bonus is our 20 odd km boundary with Mozambique, which is well worth checking as we do get some super bulls coming in especially early season. It is good classical tracking hunting and gives you the best overall elephant experience. The Zambezi Valley elephant have attractive long thin tusks and one would hope to shoot a bull in the 35–45 lbs. category. We do however shoot the odd 50 lbs. but that is unusual. If it is Tuskless that you are after Dande has hundreds of elephant cows and if hunted hard, you will experience numerous approaches and have no problem finding one.

On Buffalo hunts, they have a 100% success rate, with animals having good hard bosses. The nice thing with hunting Dande is that there are large numbers of resident buff- both herds and Dagga boys which means you will track and see buff every day before shooting your bull which is what a quality buff area should offer- unlike other areas the Dande does not rely on buff needing to cross in from another area before you have the chance to hunt them. They have far too many lions in their area and with a very conservative quota; it goes without saying that they have been very successful on lion. The Valley leopard are not as big as the Lowvelt cats however they are chunky cats averaging out at around the 130lbs mark and are very numerous in Dande and in the last 10 years there has only been two failures and considering that they get 9 leopard tags a year Dande has had plenty of happy leopard hunters!

Plains game animals are there but one has to work hard on them as is the rest of the Zambezi valley and one could expect 3 to 4 plains game animals on a 10-day hunt. They also have a little camp on the Zambezi river which one can go and catch tiger fish and bream or game view from in the stunning Mapata Gorge.

DANDE NORTH

Dande North consists of Ward 1, Dande Safari Area (DSA), Ward 2 and Ward 11. When you hunt with CMS these areas are hunted as one area giving you over 500,000 acres in the Zambezi valley to hunt in! Access either by road which is approximately a six-hour drive from Harare or by charter straight in to Pedza Pasi. Sie Jagen auf einer Gesamtfläche von 500.000 ha im "Zambezi-Valley". Die Jagdgebiete bestehen aus Ward 1, Dande Safari Area (DSA), Ward 2 und Ward 11. Zugang etwa sechs Stunden Fahrt von Harare oder mittels Charter direkt nach "Pedza Pasi".

AREA WARD 1

Ward 1 is a communal area in the Northern part of the Dande concession. Ward 1 has about 15 km of river frontage with croc and hippo hunting and fantastic tiger fishing. The hunting in ward 1 is excellent especially for elephant bulls that come in early sea-son for the crops and in July when the Masua berries are out. There are lots of buffalo and in particular old dagga boys in this area also!

CAMP MATOMBO

In Ward 1, they have one tented camp called Matombo Camp with the most beautiful views of the Zambezi River.

AREA DSA

The central part is the Dande Safari Area (DSA). This is a National Parks area meaning that there are no people living in this truly beautiful part of the Zambezi Valley. It is dotted with numerous springs and valleys and has high concentrations of all game and in-particular lion and leopard. In the DSA, they have 2 camps, Pedza Pasi & Mururu camp.

CAMP PEDZA PASI

Pedza Pasi is situated in the East of the safari area, is our permanent camp, and can cater for bigger groups. Their main camp, just 2.5 Kilometers from Zimbabwe's unmarked Eastern border with Mozambique. The camp has very comfortable accommodation for up to six guests, and is the preferred camp for early season trophy elephant bull hunts. There is a resident "camp herd" of buffalo and some dagga boys which graze on the lawn almost every night as well as the local leopard, hyena and pride of lion just to make sure no one wanders around after lights out! Power is supplied by a 220 – 240V generator and water is from a deep borehole.

CAMP MURURU

Their second DSA camp is Mururu camp. It is also chalet styles/ en suite loos and show-ers. While it is a smaller camp, then Pedza is still very comfortable and hearing lions and leopards most evenings is the norm! Located a one hour drive due west of Pedza Pasi, Mururu is a smaller more discreet camp also sleeping six comfortably. It is situated on the banks of a seasonal river under deep, deep shade provided by magnificent grove of Natal Mahoganies along the Manyemu River.

The big 4 are all common nighttime visitors, particularly lion and leopard. It is unusual not to have one of the two big cats in camp every night. Power is supplied by a silenced 220 - 240V generator and water from the river. Drinking water is bottled.

AREA WARD 2 AND WARD 11

Ward 2 and ward 11 are in the south bordering the DSA and they have one beautiful camp on the Mukanga River not surprisingly called Mukanga camp.

Ward 2 and 11 have a number of villagers within the area however, as with ward 1 there are huge unsettled areas that have incredible concentrations of buffalo. This

area is very rich in all wildlife as it has several big rivers running through it including the Angwa, Mukanga, Yirira and Manyemu rivers. As a result with the flood plains on these river systems it is not surprising that there is such good buff and plains game to be found!

CAMP MUKANGA

It is chalet styles/ en suite loos and showers and caters for up to 3 hunters. Access either by road which is approximately a six-hour drive from Harare or by charter straight in to Pedza Pasi.

DANDE EAST

Dande east is a horseshoe shaped area with a long 25 km border with Mozambique. For many years, the previous operator had a very basic fly camp and only hunted it early season for elephant bulls for which it is excellent. After filling his quota early, the area was left until the next season.

For the last 3 years, they have made a huge concerted effort at anti-poaching and have arrested numerous poachers and have taken down over 3000 snares. They are excited with the numbers of game coming back including really big herds of sable and lots of Kudu however this game still has to go back to Mozambique by mid-season when the pans dry but it is their plan to put in two permanent water points this year which will hopefully mean that they will become resident year round. Access by a three and a half hour drive or a fifty-minute charter direct to camp from Harare.

AREA DANDE EAST

The East is a big flat concession south of the unmarked 16th degree border with Mozambique, comprising mostly of very thick, virgin "Jesse bush" which elephant bulls absolutely love and for 3 years now boasted the best elephant bull average in the whole Zambezi Valley!. It is typical big elephant bull country, and over the years has produced excellent results. The bulls tend to move in to their concession from Mozambique early season (February to the end of June) often to raid crops. The East also has some resident sable, buffalo, kudu, lion and leopard, which mostly can be added to on-going hunts at trophy fee only.

CAMP KARUNGA

They have done a lot of work at Karunga and is a very comfortable chalet styled camp. The Karunga camp is a very well appointed brick under that camp accommodating up to four guests. It is located on the edge of a big natural "pan". Power is supplied by 220 – 240V generator and water is from a borehole.

AREA WARD 11

When hunting the East one is entitled to hunt Ward 11 as well. Ward 11 is an unusually productive and game rich area as it has 15km of Angwa River frontage as well as12km of Mkanga River frontage. There is also the Marirangwe range of hills running through the concession. This diverse habitat makes it so special. Excellent for buffalo, elephant, leopard, lion and bushbuck.

CHEHUCHI FLY CAMP

The Chehuchi fly camp is comprised of 4 east African style luxury tents with ensuite facilities set on the banks of the Mkanga River. We have deliberately kept the camp all canvas and as quiet as possible.

HUNTING PACKAGES

POSSIBLE ITINERARY

DAY 01	Departure from Europe	
DAY 02	Arrive in Harare, Air Charter or transfer to camp	
DAY 03-14	For example 12 hunting days	
DAY 15	Transfer or Air Charter to Harare, return flight	
DAY 16	Arrive in Europe	

PACKAGE INCLUDES

	Price (USD)

HUNT IN NYAKASSANGA

CMS has over the years had the privilege to conduct a few hunts in this amazing concession. We are excited to have purchased a larger part of the quota going forward from 2019.

One of the reasons this prime concession holds such amazing game is that it borders three National Parks. In The East is the famous Mana pools National Park. On its Western Border is Rifa which is a private Non hunting area. In the North over the mighty Zambezi River are several Photo safari areas in Zambia and on Nyakassanga Southern boundary is the imposing Zambezi Valley escarpment which stops any human and live-stock movement into this incredible area.

This massive concession "Nyakassanga" which is approximately 350,000 acres of unfenced uninhabited terrain is probably the best dangerous game hunting left in Africa today. Unlike other Valley areas the plains game is excellent as well!

> Jagdgebiet Nyakassanga

Nyakassanga has without doubt the largest buffalo concentration of any hunting concession in Zimbabwe. Not only does it have huge resident herds of buffalo but also numerous groups of old dugga boys.

This 350,000 acres of pristine wilderness bordering 3 National Parks offers hunters an unforgettable dangerous game experience.

CAMP NYAKASSANGA

Camp is a beautiful tented camp right on the banks of the Zambezi. Tents are your traditional East African style with ensuite loos and showers. All in all camp is rustic with all the modern facilities to make your stay comfortable and memorable.

HUNT IN SENGWA AREA

It is a safari area, which means that no people live in the hunting area. It is probably one of the best hunting areas in Zimbabwe. It is located in the northwest of the country in the Gokwe District. It is exactly halfway between Harare and Victoria Falls. This offers arriving guests a great opportunity to visit the world famous Victoria Falls on the way to their safari. This truly beautiful area consists of vast floodplains and hilly plateaus. The varied terrain of mopane woodlands, jesse, sand steppes and huge vlei's provides a wonderful habitat for large herds of elephant, buffalo and plains game.

CAMP SENGWA

Sengwa Camp consists of two East African safari style tents and a chalet. All tents have en-suite bathrooms and all the necessary amenities for a pleasant and comfortable stay. A central dining area on a large cliff overlooking the Sengwa River provides a wonderful and picturesque place to relax in the evening. For larger hunts, you are guaranteed the exclusivity of the entire area.

RECOMMENDED EQUIPMENT

Beige or green colored, tear-resistant clothing, preferably cotton, are recommended.

Most hunters traveling with to light hunting clothes! Choose darker green or brown tones! In the camps, there is a laundry service, so not too much clothing needs to be taken.

Attention: Camouflage is forbidden in Zimbabwe! The following list would generally be sufficient for a 10 day safari.

Clothes

3-4× Long sleeved shirts.

2× Pairs of trousers. Note: trousers with zip off legs work very well.

2× Pairs of shots

3× T-Shirts or Shirts

3-4× Pairs of good quality cotton socks.

1× Jacket

1× Thick fleece for the early mornings and evening.

1× Pair of comfortable soft soled walking shoes.

Lightweight gloves

Wide brimmed hat or baseball cap

If you are planning a hotel stay before or after the hunt, a jacket and tie must belong to your luggage!

Papers

Passport
Driving license
EFP (European firearms pass)
Credit card
Traveler's checks
Airline ticket.

Hunting equipment

Backpack
Water bottle
Flashlight, spare batteries
Hunting knife
Binoculars
Sunglasses
Spare glasses
Small Photographic equipment (camera, fils, batteries – dust-proof plastic bag)
Adapter
GPS or Compass, if you want to use

Weapon, variable riflescope (ideally 1,5-6fach), ammunition, cleaning utensils, rifle case (Do not scrimp on ammunition, on site is the ammunition purchase is not possible!)

Toiletries

Toiletries such as toothbrush, toothpaste, comb/ hair brushes, nail brush

Moisturizing Cream, Lip balm

Razor & blades, shaving gel

Small vanity mirror

Small wash cloth – towels are supplied though in our camp

Toilet paper and/or Kleenex, wet wipes/hand sanitizer or no-water/antibacterial soap – very handy in the safari vehicle

First aid kit

Sun cream
Eye, Ear and Nose drops
Thermometer (digital)
Scissors and forceps
Field dressings and plasters
Disinfectants
Wound and healing balm
Insect repellent

Medicines

Personal medication
Against fever, diarrhea and vomiting
Stomach discomfort
Sickness
Sunburn
Insect bites
Circulatory problems
Insomnia
For pain relief (always carry with you! In tent or camp, it does not use if you have an accident in the field!)
Constipation
Against sore throat

Others

Pens and an A4 folder for travel formalities
Locks for your luggage
Two separate wallets
Mobil phone and charger
Mini sewing kit
Lighter / matches waterproof
